

SECTION 16 - CAN AND MOP CLEANING FACILITY

A curbed can wash/mop basin with a floor drain shall be provided. Cleaning facilities shall include combination faucet, hot and cold water and threaded nozzle with appropriate backflow prevention device.

- A. If located inside the building, it may have combined use for cleaning mops and disposal of mop water or similar waste. Minimum recommended size is 3' x 3'.
- B. If located outside of the building, an additional mop basin for cleaning mops and disposal of mop water or similar waste may be required inside the building. Minimum recommended size for can wash is 3'x 3', minimum recommended size for mop basin is 2'x 2'. If chemical storage and hose reels are used in this area the unit will need to be increased in size to accommodate these additions . Minimum recommended size for can wash with chemical storage and hose reel is 3'x 4'.
- C. If located outside of the building some local municipal authorities may require the facility to be protected from rain water intrusion.
- D. Separate cleaning facilities may be required for portable food service equipment for catering operations.
- E. When food service equipment which will not be cleaned in place and is to be removed from the establishment then facilities shall be provided for cleaning and shall be approved prior to use. (**Figure 19** illustrates a typical can wash area)
